

Property Map of Assessable Vegetation (PMAV) Application Form

Vegetation Management Act 1999 Section 20B or 20C

Use this form to apply for a PMAV to the Department of Natural Resources and Mines, Manufacturing and Regional and Rural Development (the department). If you have any questions about completing this form phone the Veg Hub on 135 VEG (13 58 34).

1. Owners' consent

Acknowledgment and waiver by all registered owners

Before consenting to or lodging this PMAV application it is recommended that all registered owners of the subject lot/s seek their own independent legal and financial advice regarding the effect of this application, and the legal and financial impacts of any subsequent certification of any PMAV.

A PMAV is made using the digital lot boundaries current at the time of application. When there is a change to the digital lot boundary location, the PMAV cannot move with it. Therefore, if the lot boundaries are updated additional vegetation category areas (e.g. category B, C, R or X area) may apply along the lot boundaries where the change has occurred.

By signing this section, those signing are taken to:

- Consent to the lodgement of the application;
- Agree that all information entered and provided in this application, including any maps, lists or other documents attached to this application, is correct and accurate;
- Authorise the nominated contact person (if applicable) to act on behalf of all signatories;
- Acknowledge that the certification of any PMAV resulting from this PMAV application may have legal and financial implications for your interest in the subject lot/s, and you agree that in no event shall the department be liable for any special, indirect or consequential damages or any damages whatsoever rising out of or in connection with this PMAV application or any subsequent certification of any PMAV; and
- Request that the chief executive agree to make a PMAV as proposed in this application, including the replacement of any relevant existing PMAV identified in section 4 of this application form.

Where a registered owner is a company, execution by the company must be provided in accordance with the requirements of the *Corporations Act 2001* (Commonwealth), section 127.

Use of electronic signatures:

The department and each registered owner listed below consents to the use of electronic communication (electronic signature) for the signing of this application form provided the electronic communication is given/sent in accordance with the below requirements (consistent with section 14(1) of the *Electronic Transactions (Queensland) Act 2001*). The electronic communication must:

1. identify the register owner signing the form;
2. indicate the registered owner's approval of the information communicated; and
3. be a reliable method of signature for consent to the information provided in this application.

Where a company or other legal entity is signing this application without using a common seal, the application must be an entire single document where signed by multiple signatories and each signatory must confirm that:

- the company or legal entity does not prevent the use of electronic signatures; and
- each signatory is duly authorised by the company to sign electronically (eg. a company resolution or authorisation). This confirmation is to be included in the email or other correspondence lodging this PMAV form.

The information collected on this form will be used in accordance with the department's Information Privacy Guide which can be found on the department's website: www.nrmmrd.qld.gov.au

4. Existing PMAVs	
Is there an existing PMAV over the application area?	Yes No
If yes, please enter PMAV number	
<i>As only one PMAV category can exist on an area, in applying for this new PMAV, you are agreeing to the replacement of any relevant existing PMAV/s under s20D of the Vegetation Management Act 1999.</i>	

5. Type of PMAV application	
<i>Tick one option only.</i>	
Option 1 (fee required)	This will show the vegetation category areas (i.e. Categories A, B, C, R and X) as shown on the Regulated Vegetation Management Map over subject lot/s (s20C of the VMA). If you also require regional ecosystem boundaries and numbers shown on your PMAV, please tick the following action: regional ecosystem boundaries and numbers as shown on the vegetation management supporting map over the subject lot/s (s20C of the VMA).

5. Type of PMAV application	
Option 2 <i>(fee and supporting information required)</i>	Tick the action that applies below: Modify the: ☐ 1) vegetation category areas (i.e. Categories B, C, R and X). AND/OR ☐ 2) the regional ecosystems mapped over subject lot/s (s20C of the VMA). To apply for this option, you must supply the following mandatory information: A map clearly showing the areas you are seeking to change or that shows the proposed PMAV category areas. A digital dataset, which can be used in Queensland Globe or other Geographic Information System, showing the requested areas or the proposed PMAV category areas may also be supplied. AND Information explaining why you believe the changes should be made with specific reference to the definition of the relevant category area in the <i>Vegetation Management Act 1999</i>, or the regional ecosystem description. Suitable information may include clearing history (specific clearing dates and the names of imagery that clearly shows the clearing, the purpose of the clearing and any associated permit, clearing code or exemption etc, flora and vegetation assessments. Please include direction and GPS locations when providing photographs. <i>Please refer to the PMAV Application Guide, and the Guideline for determining category C areas (available at www.qld.gov.au) for further information on the circumstances when an area may be changed, and the evidence required to support the change.</i>
Option 3 <i>(no fee, however supporting information is required)</i>	Correct an obvious map error in the regulated vegetation management map (s20B(i) of the VMA). The error must be easily identifiable on satellite imagery. Applications that require detailed imagery or ground data analysis are an 'Option 2' PMAV and require a fee. To apply for this option, you must supply the following mandatory information: Evidence that the map error area solely contains non-native vegetation or is an orchard or a plantation, OR A map clearly outlining the extent of the map error. A digital dataset, which can be used in Queensland Globe or other Geographic Information System, showing the extent of the map error may also be supplied, AND Evidence that the map error area has been lawfully cleared, AND Evidence (list of applicable imagery) that shows that the map error area has not contained any woody vegetation since 15 September 2000. <i>A PMAV will only be made over the confirmed obvious map error. The balance of the subject lot/s will remain subject to the regulated vegetation management map.</i>
Option 4 <i>(no fee, however supporting information is required)</i>	To voluntarily make a category X area on a PMAV a category A area (s20C of the VMA). To apply for this option, you must supply the following mandatory information: A map clearly outlining the areas you would like to be shown as category A areas on the PMAV. A digital dataset, which can be used in Queensland Globe or other Geographic Information System, showing the requested Category A areas may also be supplied. <i>A PMAV will only be made over the confirmed category A area.</i>
